## Part of the broadest network of distribution centers across Mexico & North America

Our Silao distribution center is located in central Mexico, along the country's best highway system. The facility is just ten minutes from the International Airport of Bajío, and 35 kilometers from Leon, Guanajuato. The transit time to Mexico City is four hours and to Guadalajara is two-and-a-half hours. Toll-paid roads run between Silao and the principal ports of Manzanillo (on the Pacific) and Altamira (on the Gulf). From this central location, the DC delivers solutions for customers located in Aguascalientes, San Luis Potosí, and Guanajuato.

The Silao facility is one of 10 Kuehne + Nagel distribution centers located across Mexico and at the U.S. border and one of 60 Kuehne + Nagel NAFTA DCs. All Mexico facilities apply the strictest quality control standards in a variable-cost environment where customers pay only for the space and services used.

Warehousing services are part of a complete package of logistics services that also includes:

- **International Forwarding and Trade Compliance**  
Flexible solutions for sea, air and overland transportation from one of the world's largest and most experienced freight forwarders.
- **Distribution**  
Multi-mode, non-asset-based transportation management service for inbound and outbound domestic shipments.
